

ProTec
Nutra

YOUR PLANT BASED INGREDIENTS
EXPERTS

We formed in 2014 and have established ourselves as a market leading source of mainly plant-based ingredients, including exclusive lines, for the Global Nutraceutical and Food & Beverage Industries.

Our international team has a wide range of experience and expertise within these markets, specialising in sourcing and supplying products to businesses of all sizes. We only work with established and leading manufacturing partners to provide the best quality products and innovative market-leading ingredients.

We recognise the importance of world class customer service and support which is delivered through a closely monitored and controlled supply chain. Our UK based distribution centres house a range of popular products available for prompt despatch across the UK, EU and beyond.

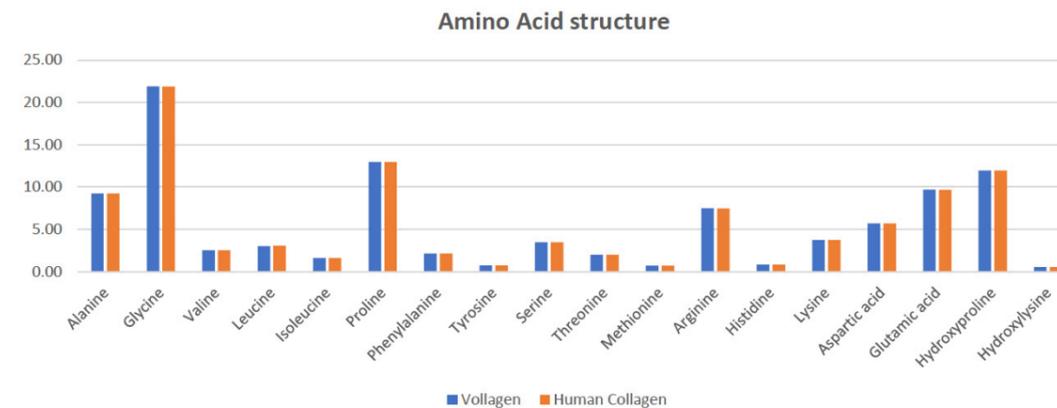

Vollagen®

100% plant-based alternative to Collagen

What is Vollagen®?

Vollagen® is a complex of Amino Acids in the same proportion as those found within Collagen, but with three key advantages over Collagen:

1. The proprietary process uses only plant-source starting material and provides the Amino Acids in the exact desired ratio and in a water-dispersible format.
2. The Amino Acids are already isolated so ready for the body to easily absorb them.
3. Vollagen® is suitable for Vegans and Vegetarians.

Quick Facts

- Suitable for Vegans and Vegetarians
- Independent consumer testing has shown incredible results within 60 days of use.
- Non GMO, EtO Free, Allergen Free
- Not Novel in consideration of Regulation (EU) 2015/2283
- Recommend 1000mg dose per day
- MOQ 25kg, stock held in the UK
- Shelf Life 24 months from date of manufacture
- Samples Available
- Full Quality and Technical Documents available

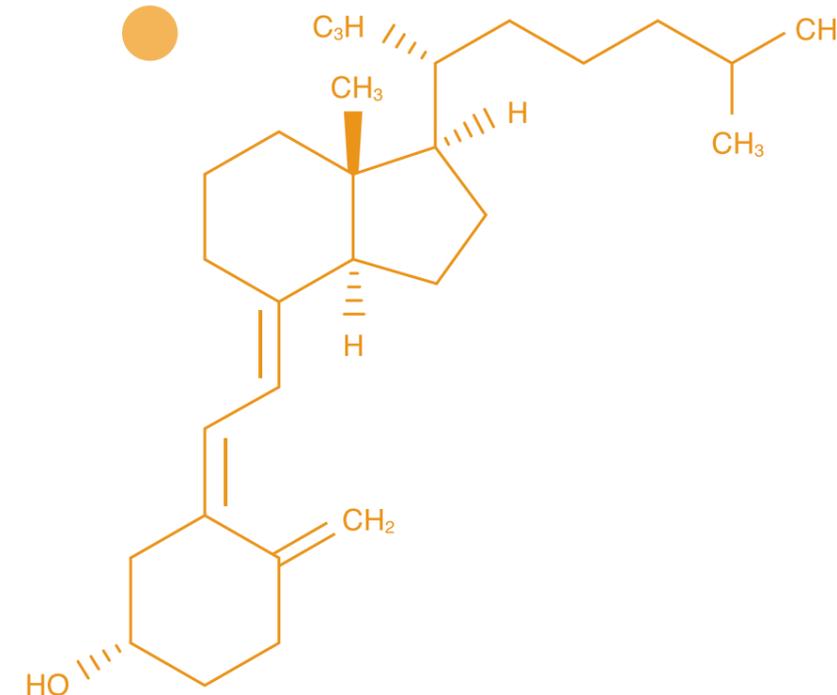

vitamin D3V[®]

100% plant-based alternative to Vitamin D3

What is Vitamin D3V[®]?

Vitamin D3V[®] is Cholecalciferol of 100% plant origin, produced from Algae, and is available in a selection of formats and strengths, perfect for use across a wide range of applications including Foods, Nutraceuticals, Pharmaceuticals & Animal Nutrition.

Quick Facts

- MOQ 1kg, stock held in the UK
- Shelf Life 24 Months from date of manufacture
- Samples available
- Full Quality and Technical Documents available

Phytodroitin™

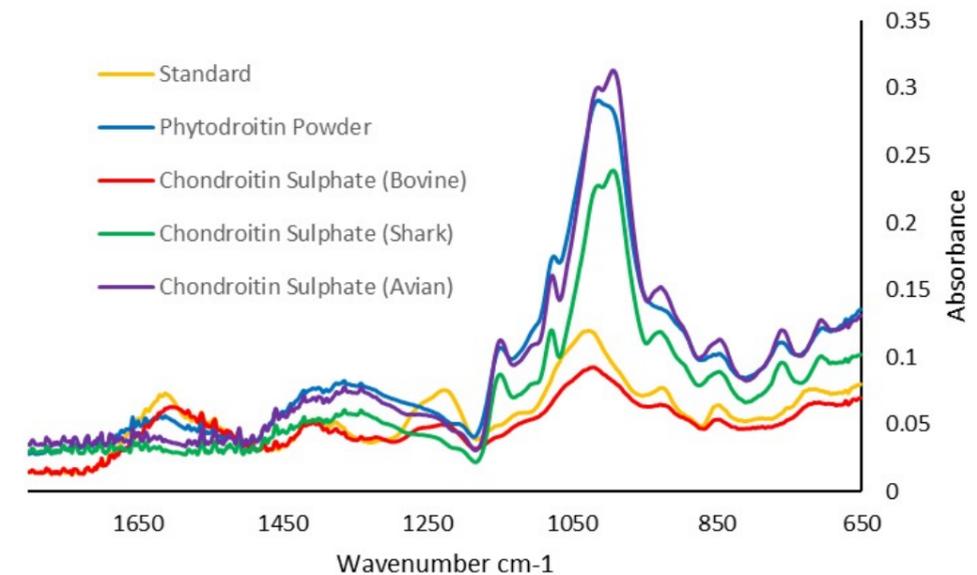

100% plant-based alternative to Chondroitin

What is Phytodroitin™?

Phytodroitin™ is a plant-origin alternative to Chondroitin.

We carefully studied the mucopolysaccharide structure of Chondroitin, and explored the significance of its composition including the role of glucuronic acid.

Phytodroitin™ is ideal for Vegan and Vegetarian products but also wider demographic products due to widespread concerns about the shark origin of Chondroitin. Phytodroitin™ is registered with the Vegan Society and Vegetarian Society and has also been evaluated by Vegan Outreach.

Quick Facts

- UK Origin manufacturing
- 100% Plant-based derived from algae
- Mimic the mucopolysaccharide structure of Chondroitin
- Plant-based alternative to animal derived Chondroitin
- Non GMO, EtO Free, Allergen Free
- Vegan certified
- Not Novel in consideration of Regulation (EU) 2015/2283
- Recommend 400mg dose per day
- Available in powder form
- Water dispersable
- MOQ 15kg, stock held in the UK
- Shelf Life 24 months from date of manufacture
- Samples available
- Full Quality and Technical Documents available

Bulk Empty HPMC 2PC Capsules

100% plant-based alternative to gelatine capsules

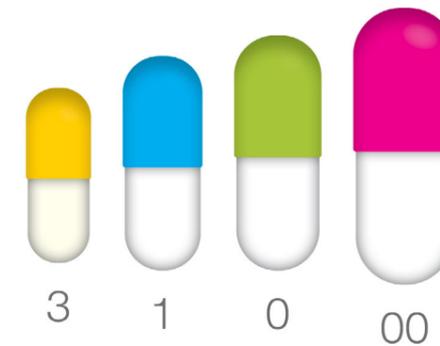

Hydroxypropylmethyl cellulose (HPMC) has now become a successful alternative material for two-piece capsules, overcoming the animal source and being suitable for vegetarians. HPMC has also been adopted as a film coating or a sustained-release tablet material in the pharmaceutical field. HPMC capsules have been developed for both pharmaceutical products and dietary supplements.

UK Stock Sizes:

#3 Clear (220,000 / carton)

Vegan Gummies

Gummy vitamins are vitamins presented in a chewy form with a texture and taste similar to gummy candies.

The market for vitamin gummies is slowly shifting away from the traditional niche target audience of children, as we are seeing a growing consumer demand in adults looking for a more innovative and convenient way to get their daily vitamins.

Vitamin gummies are particularly very popular in the Nutraceutical industry due to the fact is that they are incredibly versatile. They come in various flavours, colours and shapes and are one of the most popular and convenient ways to deliver essential vitamins in today's competitive market.

We are delighted to say that ProTec can offer gummies in bulk, ready for your own packaging or as a fully finished package.

Our gummies are produced by a fully BRC accredited Chinese manufacturer, based in Ningbo.

Bespoke formulations as well as off the shelf formulas are readily available.

Ready to use formulations:

- Vegan D3 Gummies
- Vitamin C Gummies
- Collagen Gummies
- Vitamin D3 Gummies
- Fibre Gummies
- Multivitamin Gummies
- Calcium + D3 Gummies
- Omega 3,6,9 Gummies
- Hair + Biotin Gummies
- Stress Relief Gummies
- Slimming Gummies ACV
- Sleep Gummies
- Elderberry Gummies

Powders/Extracts

We're able to provide the best quality, prices and service for all of your bulk powder and extract needs.

We stock a range of raw ingredients from qualified sources, and our stock is constantly rotating based around customer demand. We can work with low MoQs and offer options/prices to buy from our manufacturers via both sea and fast air freight services for prompt delivery.

The logo for ProTec Nutra features the word "ProTec" in a bold, black, sans-serif font. The letter "o" is replaced by a stylized orange graphic consisting of a central square with four smaller squares at its corners. Below "ProTec", the word "Nutra" is written in a smaller, grey, sans-serif font. The entire logo is centered on a white background with scattered orange dots and larger orange circles in the corners.
